DO YOU KNOW?

(Copyright 1927)

- What is a vacuum?
- How to boil water without heating it?
- How is condensed milk made?
- What is a Barometer?
- How does it foretell the weather?
- What other uses has the Barometer?
- How does the air hold up the heavy airplane?

ANSWERS TO LAST WEEK'S QUESTIONS

- 1. Of What Is Air Composed?**
Ordinary air is about 20 parts oxygen gas, 80 parts nitrogen gas; also contains small amounts of other gases and more or less moisture. These gases are not chemically combined, but simply mixed together—as distinct as so many grains of wheat and corn mingled together in a measuring cup. The oxygen is essential to combustion, also absolutely necessary to sustain life. The principal function of the other gas (nitrogen) seems to be to dilute the oxygen, which would otherwise be too strong.
- 2. How High Does the Air Extend?**
As we rise in a balloon or airplane or climb a mountain side, the air constantly gets thinner. Half the air is within four miles of the earth. At 20 miles the air is 100 times thinner than at sea level. Small balloons containing only automatic recording instruments have reached 30 miles. We know by light streaks made by the so-called "shooting stars" that the air reaches at least 40 or 50 miles. At 50 miles the air is extremely thin that this is usually given as its height. It is so thin there is a uniform upper boundary to the air, but that gradually gets thinner and thinner until it disappears entirely and nothing remains but empty space.
- 3. How Far Above Sea Level Can Life Exist?**
Practically all life is below the four mile level. The highest point to which a bird can fly is five miles. The condor, the mightiest

bird wing, has been seen soaring above the summit of the Andes at an altitude of five miles. Small birds and insects carried up by airplanes and balloons, drop over insensate at two or three miles. The greatest height climbed by a mountaineer is five miles, where breathing was found very difficult. Man has risen in an airplane to about seven and one-half miles. It is necessary to carry oxygen gas to avoid great physical suffering at these extreme heights.

4. How Do We Hear?

Just inside the ear is the eardrum, a very thin elastic membrane stretched tightly across the ear opening, similar to a drum head. Sound waves in the air strike against the ear drum and cause it to vibrate back and forth very rapidly. Directly back of and touching the ear drum is a set of three small, loosely connected bones, which pass the vibrations onward to a little bag, or sac, that is filled with a liquid substance and sets this liquid into motion. The ends of the nerves of hearing are embedded in this bag and spread out into the liquid where they perceive the vibrations and carry the sense of sound, or hearing, to the brain.

5. What Is Audio Frequency?

Variations in the rapidity of the air waves hitting the ear drum give the different sounds. The sweetest sounds are caused by vibrations as slow as 20 per second. High shrill sounds have vibrations as high as 10,000 or more per second. Air vibrations between 20 and 10,000 per second cover the range of human hearing, or what is known as Audio Frequency. One cannot perceive any sound from air vibrations that are slower or more rapid than Audio Frequency range.

6. What Is Radio Frequency?

Radio waves are vibrations in the ether; sound waves vibrations in the air. So far as known, the strongest radio waves have no effect on the hearing. The usual frequencies (vibrations) of radio waves are 50,000 to more than a million per second. Any frequency (rapidity of vibration) above the range of human hearing is called Radio Frequency. You will at once perceive that the function of the radio receiving set is to receive these rapid radio waves in the ether, to slow down the number of vibrations per second and to convert them into air waves, or sound, that are within the range, or frequency, of human hearing, or what is called "radio frequency."

7. How Does the Pitcher Curve the Baseball?

When delivering the ball the pitcher gives it a peculiar twist

HOT DOGS
And Others

By Bish

Once, some hockey game last Friday. We'll say.

In spots it looked like a street fight in Chicago.

Doc MacGregor played good hockey but nobody lost any teeth.

Too bad, Doc.

As usual we were in luck. Generally being comparatively a stranger around here, we have a hard time getting the names of different players.

Not standing next to McKee of Barbershop fame we got 'em all without much static.

Talking about barbershops reminds us of the fact that when it gets down to singing barbershop choruses at a hockey game, Twiss and McKee are called for the championship.

Erie Moffat was around of course and explained how he keeps his hair so classy.

He says he had it cleaned and bleached and shampooed at a hair restaurant in Calgary the last time he was there.

That's what brains will do.

For a fat boy Harry Paulsen is quite agile between the goal posts. We don't know whether to call him Eagle eye or Hawkeye.

Hockey has a good reputation as a sport. It is men of Allen's caliber who give it a black eye.

We received an invitation to the dance put on by the British Home at the C. & A. and attended the affair. We will say they know how to stage those things. They are a touch of gentlemen.

The Three Musketeers, George Brown and Paddy, showed us around. They make a happy combination.

Several couples were holding hands with such a soulful look in their eyes that we won't be surprised if there are a bunch of weddings coming off soon. Personally we prefer to eat our breakfast without sacraments.

Our idea of a real optimist is Claude Anderson.

He says he likes the cold better because it makes money for the gas company.

Notwithstanding the sub-zero weather, many Elks from Macleod, Granum and Staveland were here for the occasion. The Macleod team put on the degree work in a highly efficient manner. At the close of the initiation, fun and frolic held sway for an hour or so, followed by a fine lunch. Singing of "Auld Lang Syne" closed the night's proceedings.

Elks Initiate Large Number
New Members

Clareholm Elks initiated a big class of new members Wednesday night.

Notwithstanding the sub-zero weather, many Elks from Macleod, Granum and Staveland were here for the occasion. The Macleod team put on the degree work in a highly efficient manner.

At the close of the initiation, fun and frolic held sway for an hour or so, followed by a fine lunch. Singing of "Auld Lang Syne" closed the night's proceedings.

17 Year Old Canadian Boy
Champion Swimmer

Wilmington, Cal., Jan. 17.—George Young, 17-year-old swimmer, marvel of Toronto, swam 22 miles, from Santa Catalina island to the California mainland, defeated 100 of the world's best swimmers, and won \$25,000 offered by William Wrigley, Jr., as the first swimmer ever to cross the San Pedro channel.

The official time of the Canadian amateur champion was 15 hours 48 minutes. His average crawl stroke throughout was 54 1/2 minutes. The race started at 11:21 a.m. Saturday and finished at 5:06 yesterday morning, after all the swimmers save Young had given up the struggle.

Eter Meyer, of Cincinnati, came the closest to emulating Young's unparalleled feat. He was a mile and a half from shore when he succumbed to the cold.

Mountain Peak Glimpses

The annual meeting and chicken pie supper was a big success.

Sam Hunter and G. Oehler were the delegates to the convention at Edmonton.

The Mountain Peak Union made a good showing for 1926 as the financial statement shows.

To the man that wants the benefits from the U.P.A. in dollars and cents, Mountain Peak Union, saved for its members 1556 dollars and all it costs to join is 83.

To the man who wants the educational benefits: This Union sent 2 juniors to Edmonton to the Junior Conference; had speakers on the following subjects: Pool, municipal, U.P.A. and U.F.A., also put on a musical show in Staveland.

To the person who wants the social benefits: This Union had 11 meetings and several social evenings. If you want more, join up, and ask for them. You will get them. A good New Year's resolution after reading the above is: I will join the Mountain Peak Union in 1927.

M. M. Fennelstad was elected trustee at the annual school meeting Saturday.

A surprise party was held at the home of Mr. and Mrs. G. Oehler last Monday some 30 guests participating in the fun. The evening was spent in cards and dancing.

The Alberta Wheat Pool will build or acquire at least one hundred local elevators during the present year. The cost of these will run over a million and a quarter dollars. At present the Pool owns and operates 42 elevators throughout Alberta. C. M. Hall is manager of the Pool elevator system.

the father of Radio

Marconi, the father of Radio, wanted to harness the currents of the atmosphere so that the human voice would carry over distances theretofore thought to be impossible.

What radio did to the carrying power of the human voice, is what advertising is doing for progressive merchants everywhere. It brings the appeal of his goods and the desirability of them direct to the prospective buyer. It wakes slumbering desire and creates new demand. The value of advertising is and has been recognized for hundreds of years by business men who have gone far in the world through its influence.

As the master musician demands an instrument perfect in construction and tone, so does the advertisement demand wellwritten copy and a generally read medium.

The Review-Advertiser can give you an advertising service unexcelled in this district. Whether it is newspaper, poster or direct by mail advertising, the Review-Advertiser can give you service. If desired we give assistance in the writing of copy and similar matters. If you wish to do direct by mail advertising we can submit dummies and help you plan your campaign.

WONDER WINTER TRIP

**CANADIAN
PACIFIC**

**H. W. WOOD RE-ELECTED
PRESIDENT U.F.A.**

Edmonton, Jan. 19.—To the accompaniment of tears of appreciation from the thousands of delegates and visitors in attendance at the U. F. A. convention, Henry W. Wood of Carstairs was re-elected for his eleventh successive year as president of the big farmers' organization at Wednesday afternoon session.

The first session of the Alberta Legislature newly elected last June, will open on February 10th, it is officially announced by the Government.

Eastern Canada has been having colder weather than the prairie provinces. On Saturday last White River, Ontario, Canada's famous old spot, reported 30 below zero.

We understand that our old friend George Stewart is going to spend the winter in California. Everybody wishes Mr. Stewart a pleasant trip and a real good time.

**C. G. I. T. GIRLS
CORNER**

To Be a Girl

To be a girl, and see
Beauty in flower and bird and tree.
To follow truth and right, and know
The emptiness of outward show.
When climbing windblown up the hill,
To think the Father's love and care
Are round about, and everywhere.
To be a girl, and am
Above the mark of self and fame;
To pass through strong, and pure, and good,
The gate which leads to womanhood.

The C.G.I.T. girls will all be glad to learn that the new song book is now on the shelves in the office at Calgary. It contains both words and music and will be a great help in our group meetings.

Word reached us this week that our Provincial Girls' Work Secretary has been married. The happy event took place in Vancouver on January 8, and her home is to be in Toronto.

We are sorry indeed to lose Miss Lethbridge, but our very best wishes follow her. We know she will make many friends wherever she goes.

The poster has arrived announcing the Solfa-Star Campaign. It is to be held February 5 to 12, and our girls are planning to work hard at it, and win gold honors for the Clarehsholm group.

Everybody is watching with interest the progress of improvements being made in Harrold Hall. The girls have two new games in view which they hope may be enjoyed by all when the work is completed.

At the regular meeting of the group on Tuesday evening it was decided that from now on, the meetings should be held the first and third Tuesdays of each month.

A matter on which much talk has been heard lately, is the standing accommodation at the hockey rink. The snow is engendered and banked in front of the enclosure, making it almost impossible for the spectators to stand comfortably. The Review-Advertiser hopes those in charge will take the matter and remedy it.

TO THE SUNSHINE CLUB

The Sunshine Club in kindness ever deserves more praise than any words can tell.

Do they spend any Sunshine?
Well I should think
Just ask that composer out there
at Five Mile.

Accept them my thanks
hearts and sincere
And the best luck attend you
Has this meeting year

REGULAR MEETING TOWN COUNCIL

A regular meeting of the Town Council was held on Thursday evening, Jan. 19, with Mayor Ringrose, and Councillors Maxwell, Walk, Godley and Anderson present.

The minutes of the previous meeting were adopted as read on motion of Maxwell and Anderson.

Bylaw No. 277 being a bylaw to appoint T. A. Moore as an alderman, to be held next February received the required three readings and was unanimously passed.

Moved by Maxwell and Godley that the town sell to G. Erickson, lots 4 and 5, block B, Plan 147N, for the sum of \$100 cash. Carried. The Mayor and Secretary were authorized to sign a transfer in this connection upon receipt of the money.

Accounts as signed by the chairman of the finance committee and a memorandum as to total bill \$2520.44 were passed for payment on motion of Godley and Anderson.

Councillor Anderson brought up the matter of remodeling and equipping the bus truck purchased for the Fire Dept. last year, or one. He was delegated to go to High River to look over a fire truck they have there.

CLARESHOLM LOCAL NEWS

Ross Tweed of Macleod was a visitor here Wednesday.

Mr. Wilkinson of General Motors is in town on business.

Wm. Fosse of Stavely is a patient in the hospital.

John Walls shipped a car of hogs to Lethbridge this week.

Qually & Yokom are expecting a carload of new Chevrolts soon.

Vest Whitte has purchased a new Buick coach from Qually & Yokom, the local agents.

Jim Ferguson spent the first part of this week in Calgary, to attend O. C. Arnestad's wedding.

Fred Collier left on Wednesday for Vancouver where he will enjoy a few weeks' holidaying.

H. Cohen shipped a car of choice beef cattle to New Westminster this week.

Mrs. Barclay who has been quite ill in the hospital is recovering.

Don't forget to see the Juvenile hockey team play Stavely Saturday at 2 p.m.

Mr. and Mrs. Stanley Wyatt spent a few days in Calgary this week.

Foot Hill Lodge No. 13 will hold their next social evening, members of the order and their ladies, on Monday, January 24.

John Dougan who was operated upon for appendicitis last Wednesday in the local hospital is doing well.

Thus, Thompson of Oyen, Alta has bought out Mr. Lang's harness and shoe repair shop. Mr. Lang will remain in town, assisting Mr. Thompson for a while.

Mr. and Mrs. M. Arnestad spent the first of this week in Calgary to attend the wedding of Mr. Arnestad's brother, Mr. O. C. Arnestad.

Mr. Munro's rink, composed of Munro, Skis, Godley, Yokom, and Harry Paulson, won the Brewster Cup and four boxes of cigars in the local curling competitions last Tuesday evening.

Larry Semon in "Stop, Look and Listen" at the Rex theatre Friday and Saturday nights this week. From the stage comedy by Harry B. Smith.

Real winter has held sway here the past week, with minimum temperatures well below zero. Thursday night was the coldest of the week, when the mercury dropped to 30 below zero for a few hours. About two inches of snow has fallen.

A meeting will be held at Arnestad Bros. office, Clarehsholm, on January 28, at 2 p.m., for the purpose of considering the advisability of putting on a community horse sale in Clarehsholm this spring. All those who have horses for sale are requested to attend this meeting.

STAVELY DOWNED UNDER CLARESHOLM ONSLAUGHT

The hottest contest of the hockey season was played on the local rink last Friday evening, when Stavely met defeat at Clarehsholm's hands by a score of 3-1. A big crowd attended and got value plus for their money. The ice was in good shape and play was lightning fast throughout. Considerable bad feeling developed among the two teams, especially after Referee Grumby was hit by Allen, the Stavely goaltender. This matter threatened to break up the game, but upon Allen's apologizing to the referee, play was resumed. Several minor fights were averted in the end after that. Referee Grumby held the game well in hand however, calling them close and after.

Allen's conduct was extremely unsportsmanlike. Had he tried a similar stunt in one of the leagues he would have been ejected from the ice for the rest of the season.

Palmer, McDonald and Amundsen put in brilliant work for the locals, showing individually a combination of brain and muscle. The Stavely players were out of the game, the size of Clarehsholm, Clarehsholm dominated in all three periods, always forcing the game, and leaving a keeping Stavely players on their own half of the ice. Paulson, though not often named, made some beautiful saves. The Stavely boys just weren't strong enough and did not have the team work, to beat the local aggregation of puck chasers.

In the first period Paulson made the scoring with a hanging bit of stick handling, which confused his opponents and gave him his chance. Shortly after this the puck was shot into the Stavely net, but as the goal judge failed to raise his arm, Referee Grumby rang the bell to investigate. After a few minutes the puck was ordered into the cooler for five minutes, where he refused to go. Both teams then left the ice, and after Allen's apology play was resumed. The period ended 1-0 in favor of Clarehsholm.

Johnny Amundsen displayed some fast work in the second space, shooting the puck home from close in. Palmer followed with one of his beautiful solos and also scored. Bobbie Powers was not so secure on a pass from McGregor. At this stage Paulson made a neat save. Palmer coming down the ice with the disc was fouled in front of the Stavely goal, whereupon he skated around and back of the net with the puck and drove her home from the other side, while Allen was some ten feet out of his cage. At the end of this period the score was 2-0 in favor of Clarehsholm.

The third round opened fast and furious, both sides exchanging themselves. Johnny Amundsen scored, to be followed by Powers. Holbrook scored unassisted. Palmer again drew a foul. The score again stood 3-0 here. Stavely's only goal on a lone-hand play, thus ending the game 3-0 for Clarehsholm.

The Line Up

| | | |
|-------------|----------|------------|
| Clarehsholm | Goal | Stavely |
| Paulson | Defence | Allen |
| Palmer | Defence | Jenkins |
| McDonald | Forwards | Anderson |
| Powers | Forwards | H. Bonnyan |
| Amundsen | Subs. | Y. Bonnyan |
| McGregor | Subs. | A. Rea |
| Holbrook | Subs. | Malchow |
| Shearer | Subs. | Fisher |
| Thompson | Subs. | |

O. D. Walker is visiting in town. He is to be associated with two others in a garage business in Pincher Creek.

Regarding the dance of the St. Andrew's Society on the 25th, the committee wish that everyone who desires to be present, and particularly any of Scottish birth or descent, receive an invitation. Names can be handed in to J. R. Watt or And. Laurie at Bank of Commerce.

A. E. Qually returned last Friday from Coxa, Ontario, where he has been attending the General Motors Dealers convention. He reports a very enjoyable and instructive trip and states that the party also made excursions to Detroit and Milford, Mich., where the company's proving grounds with its four mile race track is located.

Hockey Club To Hold Grand Ice Carnival

A carnival will be held on Jan. 28th, under the auspices of the Clarehsholm Elks' Hockey Club. Prizes will be awarded for the following contests:

- Best fancy dressed lady.
- Best fancy dressed gentleman.
- Best comic dressed lady or gentleman.
- Best fancy dressed girl under 16 years.
- Best comic dressed boy under 16 years.
- Race for girls 15 years and under.
- Race for boys 15 years and under.
- Race for girls 15 years and under.

Ladies' hockey game between Clarehsholm and a visiting team is expected to be the main attraction.

Efforts will be made by the committee in charge to provide music if it can be arranged.

THE CLARESHOLM ELKS

Those Clarehsholm Elks so jolly and gay
They help children celebrate in a most pleasant way.
Be the child poor or rich.
They don't give a snap.
They're all welcome as factors in May.
Tardy friends
Better late than never

CHURCHES

UNITED CHURCH

11 a.m.—The morning service will be of interest to both parents and Sunday school workers and scholars. I will speak on "The Success of the Second Crop"—as an encouragement in our work for the good of others.

Sunday school at 12:15.

7:30 p.m.—Subject, "The Christian Art of Silence"—a comparison ourselves to the one at last Sunday evening ("The Christian Art of Speech").
